Dear Joe,

I wanted to personally thank you for your Keynote Speech at our United Way launch on October 9th. You helped make the event a very special day for us and we broke all records for numbers of donors and overall contribution.

Joe, the feedback from everyone that attended was extremely positive. We are blessed to have had you speak. There are so many words to describe your talk including "emotional", "heart warming", "touching" and "relevant". The value of caring and reaching out to help those in need came through loud and clear. Just as people made a difference in your life, you are making a difference in the lives of so many more, as you bring them hope and a vision of a life in meaning and love. Thank you Joe.

I have heard you speak twice now and both times you successfully touched the audience in a way that only someone who has lived their story can. You taught us all that we can endure change and hardship in life and still come out victorious. Your "Skidrow to CEO" message is what the world needs today.

As you know, the Justice Institute of BC trains those who respond to offenders and who support victims and those who fall by the wayside. Your story touched us all and validated the work we and our graduates do.

On behalf of all of us here at the Justice Institute, we wish you continued success in every endeavor you tackle.

Sincerely,

Jack M'Gee
President
