Dear Joe Roberts:

I would like to thank you again for the excellent presentations you gave at our school. Staff and students thought that your messages were powerful and informative. Some classes had discussions about drug use and abuse following the presentations and many interesting points were raised. The following are some comments made by people who heard the presentation:

I was impressed with how he changed ... it was really inspiring. It must have been hard for him to be sober for 10 years and it's kind of like nothing is really impossible if you want to do it. (Brittini age 11)

I like the way the presentation was Vancouver based. The videos were excellent. (Mr. Bruxelles French Immersion gr. 6 - 7 teacher)

I learned a lot about drugs. It showed about 20 people who died from drugs. (Matthew age 11)

It was a good topic. Joe taught us a lot about smoking and drugs and what could happen if we use them. (Tyler age 11)

Thanks again for helping to make our community a safer one. I would be happy to recommend you to another school. See you next year!

Sincerely

  
Harriette Chang  
School Counsellor
