A Tradition of Excellence

The Courage to Change Foundation

Just a note to let you know how much we appreciated your presentation on April 5th. Several staff members said it was the most powerful they had ever seen. Another student said it was inspirational, and certainly there is no question that you held their attention for the full hour – that is a huge feat in itself! Seven hundred students sitting on bleachers and on the hard floor of a gym are apt to get a little fidgety, but you kept them mesmerized with your down-to-earth message, slides, music and questions and answers.

A couple of our English teachers noticed some spelling and punctuation mistakes (okay, let's admit it – they are trained to notice these things!). You might want to have someone proofread your slides.

I've put your website on our announcements – hope you're receiving some direct feedback from students. Good luck with your lifework-I personally found it inspiring to see someone go with their vision to such an extent. Thank you – I consider it serendipity that your fax came across my desk right at the moment I was considering an assembly.

Yours truly,

Barb Leigh
