Re: "Constructing a Miracle 2003" presented by Award Magazine and Peter Legge.

Dear Joe,

We just had to write to you today on behalf of our entire Board of Directors to thank you very much for the inspiring and uplifting talk you gave at our Gala Fundraiser on October 29<sup>th</sup>. It was more than generous of you to fit us in to your hectic schedule, but, beyond that, your message and its impact at the event were amazing.

We've heard from a number of guests attending the gala how you touched them with a better understanding of addiction. A perspective on choices and our own view of people living with addiction. Such a hope-filled and very positive message.

We are very grateful for your support and enthusiasm for the VARC project and cannot wait to work with you again. Joe, we thank you, all of us, from the bottom of our hearts for your work, for your story and your ability to share that story in such a touching a real way. Your honesty and integrity shine with your message.

Thank you too for donating the proceeds of your book sales at our event to VARC. With your help, we were able to raise (estimated) \$ 26,000.00 at "Constructing a Miracle 2003".
