

Dear shoeboogie man

Wed. April 25/01

hello my name is Andrea.
I really enjoyed your presentation
and those lies that you had on the
screen were true everybody says those
kinda stuff I should know I said
all that kinda stuff myself
and with that I went to jail
for 4 months and when you told
me all that kinda stuff it hit
me I was like wow that could be
me up there on the screen so
I have decided to change my life
around. the ending of your presentation
really touched me because I got to
see people in your age up there and
I was doing like the same stuff or
I was around it and when I seen
those young people up there it made
me think like wow one day that
could be me up there if I don't
change but you really got to me
and when you asked if anyone had
a friend die in a car accident I
had several friends die in car accidents
and they were also drunk in the
car and at my best friend's funeral
we also played forever young and I almost
cried because it made me realize that
life is short so the right way
go to school stay out of trouble
and you will be proud of yourself.

Sincerely
Andrea.

Dear Mr. Shoeboogie man,

Den B.

I am writing you in regards to your Presentation at our school (Elgin Park Secondary). I would just like to say that I enjoyed your speech on drugs and what they can really do to your body. In that hour of your time, I realized that drugs and alcohol are not fun but they can ruin your family and life forever. Thank you again for taking the time to talk to us, I greatly appreciate it.

Yours truly,

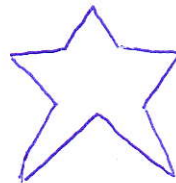

Den Boshart.

Sup, Joe

Thanx, for coming to are
school and informing us about
the dangers of drugs. It was
sad to see all the people that died
from drug use. The test was cool,
but upsetting since I had a high
score. Um . . . yeah man have a good
day !

Later daz,

Lyndsay

Dear Shoeboogieman,

I would like to press my thanks upon you for coming to my school and presenting what you have been through to us. I think that your presentation helped out a lot of people when you explained to them what drugs can actually do to not just you but anybody. The way that you presented your information was a powerful and effective method because everyone that I talked to personally, loved it and said that it did change their opinion of what they are doing or not. I would definitely be interested in seeing another one of your presentations if you were to ever come back to C.A.B.E.

I hope that you will except my thanks and know yourself that you are doing something in many peoples lives when you speak with them. I have definitely learned myself that "It's not over till it's over."

Thank you again Joe,

Sincerely, Billy Howard
